Sunnyhill's Conopa's Felisa has a powerhouse of genetics-Snowmass Conopa on her top side and Jeremiah's Peruvian Jumanji on her dam's side. Together this created a very nice female who boasts a dense fine fleece with a medium frequency crimp, her conformation and bite are good. We would like to see better coverage down her legs and shorter muzzle, for this reason we are offering Felisa with a breeding to our newest superstar Accoyo America's Kung Pao, male or female this cria will be stunning!!
