**SIRE:** SHAHBOOM BREW  
**DAM:** HAYLS BREW  
**HISTOGRAM:** 2022: 18.9, 4.3, 22.9%

HASHA BREW is a strikingly, elegant female with fabulous fiber quality which is exhibited by her fine bright fleece, abundant coverage and density. HASHA greatness is a testament to her fully loaded genetic history. She is created from many of the great alpacas that have accelerated our alpaca industry to what it is today. HASHA genetics are backed with the superb Shahboom Brew, outstanding NGG Lional, Snowmass Quechua's Shahtoosh and Sweet William, just to name a few. HASHA is guaranteed to add amazing genetics and quality to your breeding program.

HASHA'S sire, Shahboom is the perfect genetic combination from two great alpacas. His Sire, Snowmass Shahtoosh, speaks for himself with his offspring's continual performance in the showing. Shahtoosh consistency produces outstanding alpacas with incredible fineness, density, and character. Shahboom's Dam, Chicapee Brew is one of the pillars of the Brewster Alpacas breeding program. As a daughter of the great NGG Lional, she has proven to pass on their outstanding confirmation and fibre qualities to produce exceptional cria's year after year. Shahboom carries forward the genetic legacy from both sides: solid conformation, coverage, luster, and density. HASHA's dam, Hayls Brew is the daughter of Snowmass Conopa. Conopa streams from a solid line of Snowmass. Hayls continues the Snowmass legacy with stunningly strong confirmation, and the ultimate density. You can see the genetics as Hayls has rubbered stamped her daughter ensuring the Snowmass prominence lives on with density and uniform coverage.

HASHA's density and fleece architecture would make her ancestors proud! She brings the force of her past to the future of her progeny.
