We are proud to offer TnC Ava to the Max to the Futurity sale.

Ava is sired by Genesis, a 7X Supreme award winner who has produced numerous award winning offspring in his breeding career. What we love about him most is his ability to pass along his uniformity of fineness, improved crimp definition and outstanding brightness.

Ava's dam is Misscris, descending from Snowmass genetics on her sires side and Lionel on her dam's side, she is a true black.

Ava is open but can come with a breeding from TnC in your purchase. We would suggest Arriba Genuine, a young male just starting out his breeding career who is out of Arriba Adonis, an outstanding grey.

Please consider Ava to take your colour breeding program to the Max!
